

KLOVE Radio provides quality listening for my entire family. I am very active in my family's life and want the best for them. I do not want them bombarded by commercials! I want them to enjoy music that is uplifting. If an LPFM broadcaster takes over the KLOVE in my area it would severely limit my access to good music! Do not give LPFM the right to take over national broadcasters frequencies.

KLOVE provides listeners with hope and purpose in life. In a country inspired by GOD, many areas have been forced to remove Him.. i.e. school, look at the condition they are in now. Many people who have been torn down by society and are searching for something to hold on to. KLOVE is that connection between them and God. I hear daily on KLOVE how a life was save, how destroyed marriage relationships are healed, how single mom's cope with life.. There is so much community influence by just this radio station, I can not express it in words.. Protect the valuable asset by not allowing LPFM the ability to remove it from the air.

Thanks,

Kevin
